[00:02:03] So tell me about your first day on campus.

[00:02:07] Well, I was originally in the Corps cadets, but then it wasn't for me. So basically my first day was my parents dropping me off with one luggage, one suitcase and then driving eight hours back down and it was raining and I was all by myself. So I went, college hit me hard, like on my first day.

How was how was your experience in the Corps?

It wasn't for me. I'm kind of. I liked going through it, but it wasn't for me at the end.

Trying to balance academics and the corps was too much.

How was your first day not being in the corps?

I was sick because I had a real bad cold. So it sucked.

[00:02:47] But. Yeah.
