

Keyword: Coming to Texas A&M

Interviewee information:

- Name/nickname: Rudy
- School year: 2022
- Major: Engineering
- Hometown: Laredo, Tx
- Family's country of origin: Mexico

Transcript (copy segment transcript here):

[00:01:19- 00:01:53]

[00:01:19- 00:01:53] What was the application process like? It was kind of. Like not scary, but I didn't know what I was doing at times. And then. There were some- there were some people who were willing to help or like advisors in my high school, but it didn't really. Most of the application process was done by myself. So I feel like it could have been easier, but it wasn't completely impossible or hard.

[00:01:54- 00:02:20]

[00:01:54- 00:02:20] OK, so tell me about the day that you got your acceptance letter to Texas A&M. I was excited that I got to come here because if I didn't come here I was most likely gonna stay home. So I got- I was excited. My mom's excited. And the only thing that I was waiting for was if I was going to have enough scholarship money to come here. Right.

[00:02:20-00:03:22]

[00:02:20] So tell me about your first day here on campus. My first day here on campus. If you remember. I'm trying to remember. Its okay.

[00:02:38] I think. I don't remember my first first day on campus, but I think one of my first days, not the very first date, but one of my first days, I went to the engineering building that had just opened up. And I went with my friend Christian, and we were running around doing like a scavenger hunt. We'd like and we had to take pictures of ourselves and the end goal was to get to... Zachary. And then when we got to Zachary we would show the pictures of all the places that we went to. And then they would give us a free shirt, something that. But that's one of the first days that I remember here.
